# Schedule of the LTP Thursday Colloquia
# Winter Semester 2005/2006

**PSI, WHGA Auditorium, 16:00**

January 24, 2006

| Date | Speaker and Title | Host |
|---|---|---|
| 27.10. | **G. Colangelo** (Bern University):<br>Hadronic Vacuum Polarization Contributions to g-2 of the Muon | M. Ciccolini |
| 10.11.* | **Y. Kopatch** (JINR Dubna):<br>Ternary and quaternary nuclear Fission | M. Daum |
| 17.11. | **A. Zehnder** (PSI):<br>The successful High Energy Solar Spectroscopic Imager HESSI | M. Ciccolini |
| 24.11. | **Z. Berezhiani** (University L'Aquila):<br>Parallel Mirror World and its Implications for Particle Physics, Astrophysics and Cosmology | M. Spira |
| 1.12.* | **D. Eversheim** (Bonn University):<br>Tests of Parity Violation with strongly interacting Probes | R. Henneck |
| 8.12. | **J. Ellis** (CERN):<br>**CANCELLED!!** | M. Spira |
| 15.12. | **M. Krawczyk** (Warsaw University):<br>Higgs Physics at a Photon Linear Collider | M. Spira |
| 12.1. | **N. Straumann** (Zürich University):<br>Dark Energy | M. Ciccolini |
| 19.1. | **R. Sommer** (DESY Zeuthen):<br>Heavy Quarks in Lattice QCD | M. Spira |
| 26.1.† | **R. Heuer** (DESY Hamburg):<br>The Role of Accelerators in a 'Dark World' | M. Spira |
| 2.2. | **E. Kissling** (ETHZ):<br>Earthquakes and Tsunami | M. Spira |
| 9.2. | **J. Stirling** (IPPP Durham):<br>Quantum Chromodynamics and High Energy Colliders: Fundamental Physics From Non-Fundamental Particles | M. Spira |

∗ on this day in room E6 of building OSGA
† on this day in room 402 of building OFLG
